■ WHAT THE PLAN COVERS

EVERY YEAR, YEARS TWO TO FIVE

Domain renewal — secured on time, in your name, every year

Daily backups — restorable at any moment, whatever happens

Uptime monitoring — we know before anyone notices

Seasonal refresh — Diwali, Christmas, New Year, handled

Managed hosting & SSL — monitored servers, https, no downtime worries

Security & updates — software kept current and protected

Menu & price edits — two content changes a month, done for you

Direct support — one WhatsApp message away

The honest comparison. Managed on your own: domain ₹1,200, capable hosting ₹3,500–5,000, and a developer at ₹500–1,000 for every small change — with the worry still yours. ₹8,200 a year hands the whole lot to us. **Turn the page** — we've explained exactly how it works, in plain words.

Your website, taken care of — *completely.*

Think of your website like a small shop on the internet. A shop needs an address, a place to stand, a lock on the door and a little looking-after. Normally you'd chase three or four different people for all of that. **With us, you chase no one.** Here is everything we quietly handle for you:

■ WE HANDLE EVERYTHING · YOU HANDLE NOTHING

THE CARE PLAN, SIMPLY

■ A home on the internet

Hosting. Your website lives on a powerful computer that stays on day and night. We rent it, run it and keep it quick — you never touch a server.

■ Your name, kept yours

Domain. thewhitemug.site is your address online. We renew it on time, in your name, so it can never slip away.

■ A strong lock on the door

Security & SSL. That little padlock in the browser. We keep the site safe from hackers and warnings, so guests always trust it.

■ A spare copy, every day

Backups. Each day we quietly save a full copy. If anything ever breaks, we put it back in minutes — nothing is ever lost.

■ Always watching

Monitoring. We get an alert the moment something looks off — usually fixed before you or a single guest notices.

■ Any change, just message us

Support. New price, new dish, a festival banner? Send one WhatsApp. We make the change for you — no logins, no fuss.

That's the whole idea. You run the café; we quietly run the website. You never deal with anything technical — you simply tell us what you'd like, and consider it done.
