■ WE HANDLE EVERYTHING · YOU HANDLE NOTHING

THE PLAN, IN PLAIN WORDS

■ A home on the internet

Hosting. Your website lives on a powerful computer that stays on day and night. We rent it, run it and keep it quick.

■ Your name, kept yours

Domain. thewhitemug.site is your address online. We renew it on time, in your name, so it can never slip away.

■ A strong lock on the door

Security & SSL. That little padlock in the browser — we keep the site safe from hackers, so guests always trust it.

■ A spare copy, every day

Backups. Each day we quietly save a full copy. If anything ever breaks, we put it back in minutes.

■ Always watching

Monitoring. We're alerted the moment something looks off — usually fixed before a single guest notices.

■ Any change, just message us

Edits. New price, new dish, a festival banner — a couple of changes each month are on us. Just send a WhatsApp.

Everything, together — *one clear picture.*

Your website, built and yours to keep — and five years online without a single worry. Here is the full engagement at a glance.
